PROFESSIONAL SUMMARY

B.Sc. Computer Science graduate specializing in Data Analytics, with practical experience in analyzing, transforming, and visualizing data using SQL, Excel, Power BI, and Python. Skilled in Advanced SQL, Power Query, DAX, data cleaning, data validation, data modeling, KPI reporting, and interactive dashboard development. Experienced in working on analytical projects to identify trends, generate insights, and present data in a clear and meaningful way. Seeking an entry-level Data Analyst opportunity to apply technical and analytical skills and contribute to data-driven business decisions.

TECHNICAL SKILLS

Data Analytics:	Data Cleaning, Data Validation, Data Analysis, Exploratory Data Analysis, Data Visualization, KPI Reporting, Trend Analysis
SQL:	Advanced SQL, Joins, Subqueries, CTEs, Window Functions, Views, Aggregate Functions, Stored Procedures, Triggers
Power BI:	Power BI Desktop, Power Query, DAX, Data Modeling, Data Transformation, KPI Dashboards, Interactive Reports, Slicers
Microsoft Excel:	Advanced Excel, PivotTables, XLOOKUP, VLOOKUP, INDEX-MATCH, IF/IFS, Conditional Formatting, Charts, Data Cleaning
Python:	Python, Pandas, NumPy, Data Manipulation, Data Cleaning, Basic Data Analysis
Tools:	SQL Server, Power BI, Microsoft Excel, GitHub

PROJECTS

HR Analytics Dashboard <i>Tools: Power BI, Power Query, DAX, Data Modeling</i> - Developed an interactive HR Analytics Dashboard to analyze employee workforce metrics and identify key trends. - Transformed and cleaned HR data using Power Query and created calculated measures and KPIs using DAX. - Designed interactive visualizations, slicers, and KPI cards to support data-driven HR analysis. GitHub: github.com/rutuj-ja/HR-Analytics-Dashboard-Power-BI-Project	Power BI
Advanced HR Analytics <i>Tools: SQL Server, Advanced SQL, CTEs, Window Functions, Views</i> - Developed an HR Analytics database using relational Human Resources datasets to analyze employee and workforce information. - Applied Advanced SQL, CTEs, Window Functions, Joins, and Aggregate Functions to perform complex data analysis. - Created reusable SQL Views for dashboard-oriented reporting and generated insights from employee, department, and salary data. GitHub: github.com/rutuj-ja/Human-Resources-Analytics-SQL-Project-Advanced-SQL-Window-Functions-	SQL Server
Hospital Management System <i>Tools: SQL Server, SQL, Database Design, Triggers</i> - Designed and developed a relational Hospital Management System database to manage patients, doctors, and appointments. - Implemented SQL tables, relationships, constraints, and queries for efficient hospital data management and retrieval.	SQL Server

- Created a SQL trigger to prevent duplicate appointments for the same patient and doctor, ensuring data consistency.
- **GitHub:** github.com/rutuj-ja/Hospital-Management-System-SQL

TRAINING & EDUCATION

Data Analytics Course | CIIT Training Institute

May 2025 – Dec 2025

Key Skills: SQL | Microsoft Excel | Power BI | Power Query | DAX | Python | Data Analysis | Data Visualization

B.Sc. Computer Science | KSS College of Shikrapur, Savitribai Phule Pune University

Graduation: 2025

CGPA: 7.65 / 10
